**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

More competition will help grow the economy and help keep big company in check when they abuse the small consumer. I was stuck with a few carriers in my area for years, and when they use to cut my service at random or throttle my connection to save a few dollars. These were critical times for me when I was on college. Now the internet is becoming more prevalent in education and health, we need to have access to a fair internet where it does not matter the size of your wallet o have access to fast speed and more providers. Putting a monopoly on essential services like this will only raise cost.
